WORK EXPERIENCE

Halcyon, Long Island, NY

2022 - Present

Full Stack Developer

- Develop full-stack websites and web apps for small-business clients using JavaScript, React, Next.js, Node.js, WordPress (Bricks), Shopify, and WooCommerce.
- Design UX/UI and brand identity in Figma to improve user engagement and professional presentation.
- Build custom WordPress themes and components in PHP/JS, enabling clients to self-manage content and reducing support requests.
- Configure hosting, DNS, SSL, and version control with GitHub; ensure secure deployments and continuous uptime.
- Lead end-to-end client communication, gathering requirements and delivering solutions aligned with business goals.
- Improve performance by optimizing media, implementing caching, and reducing unused JavaScript, consistently achieving <3s page load times on core pages.
- Conduct accessibility and SEO improvements aligned with WCAG and Core Web Vitals best-practices to boost discoverability and usability.

MMEink., Farmingdale, NY

2022

Lead Web Developer

- Led the development of responsive user interfaces using **Wordpress**, **HTML**, and **CSS**, ensuring a 100% compliance with responsive design standards across multiple devices and screen sizes.
- Provided backend support for inventory management systems and e-commerce platforms with thorough audits to identify issues before they impacted the business and troubleshooting all software or hardware issues.
- Improved accessibility by conducting audits and implementing fixes, leading to a 98% **WCAG 2.1 AA** compliance rate for all websites.
- Optimized page load times by reducing **JavaScript** bundle size and implementing lazy loading, achieving an average page load time of under 2.5 seconds across all key pages.
- Supported Opencart and WordPress platforms ensuring security and uptime.

Aim Services, Saratoga Springs, NY**2020 - 2021*****Web Developer / IT Support***

- Provided one-on-one IT support and training to adults with developmental disabilities to build and utilize custom tools for managing websites.
- Helped users manage websites and e-commerce stores, ensuring they could navigate business tools effectively.
- Managed social media profiles and online retail platforms, offering tech guidance.

Quality Ventures, Hauppauge, NY**2018 - 2020*****Full Stack Engineer***

- Directed end-to-end web creation process, specializing in React front-end and Node.js backend technologies.
- Collaborated seamlessly with LAMP components, offering API REST end-points and custom WordPress plugin expertise.
- Engaged directly with designers and clients to seamlessly implement custom features.
- Acted as the point person for technical support issues, providing direct assistance to clients and team members to troubleshoot APIs, server environments, and WordPress systems.

Eastover, Lenox, MA**2014 - 2015*****IT Technician***

- Migrated websites from Joomla to WordPress and managed ongoing updates.
- Collaborated closely with proprietors and construction team to establish an efficient intranet network spanning all property structures.
- Designed and implemented a local only web server hosting custom content only for authorized guests.
- Diagnosed and repaired hardware and software issues, including networking problems.
